PROMYS and PROMYS Europe <i>Student Participant, Counsellor, Head Counsellor</i>	Boston, USA and Oxford, UK <i>Jul 2013, 2014, ..., 2018</i>
PROMYS is an intense six-week mathematical summer school which introduces high school students to mathematical research, the main topic being number theory. I first participated as a student, then returned as a counsellor (supervisor for the students) and then returned several times as the Head Counsellor in the newly emerging European version of the summer school, which I helped to build and shape in a leading position.	
Mathematical Student Society <i>Conducted a weekly seminar for 7th, 8th, 9th and 10th grade students.</i>	Berlin, Germany <i>Sep 2014–Dec 2018</i>
Berlin Mathematical Olympiad <i>Conducted seminars on various topics; involved in grading and problem design.</i>	Berlin, Germany <i>2013–present</i>
